for

## CONTRACTOR SERVICES FOR REPLACEMENT OF THE CANTON PUBLIC SAFETY BLDG ROOF

**66114-26-RFP-0401**

Issued on: **April 1, 2026**

Addendum #1: **April 8, 2026**

Mandatory Pre-Bid Meeting: **April 15, 2026, 9:00am**

Deadline for Questions: **April 22, 2026, 5:00pm**

Deadline for Responses: **April 24, 3:00pm**

Due Date: **May 6, 2026, 3:00pm**

**April 8, 2026**

**Addendum No. 1**

- The City of Canton is requesting proposals to replace the roof on the Public Safety Building located at 151 Elizabeth Street. The proposal package must include a qualifications portion as well as a separate, sealed cost proposal. Replacement of the roof will be for a total replacement, that will include the sloped standing seam portion as well as the flat TPO section and all flashings required for a weathertight roof envelope. Given the age of the building, we anticipate there to be underlying and/or unseen roofing or structural components that need to be replaced.
- The delivery method for this project is design-build. With this RFQ/P, the City is seeking a proposer to provide a quote to replace the complete roof, as well as provide some unit cost estimates for possible underlying repairs.
- The City engaged the services of CROFT & Associates, Inc. as an owner adviser; to assist the City with preparing a scope of work for this project, assist with preparation and issuance of an RFQ/P, assist with review of submissions, and to assist with some limited construction administration. The city did NOT engage CROFT for any design or architectural services on this project. Consequently, CROFT & Associates is NOT acting as a design professional on this project and it is the responsibility of the winning proposer to engage their own design professional as needed.
